Developed a high-performance cybersecurity website using WordPress, focusing on speed optimization and responsiveness. Implemented advanced techniques to ensure quick load times and a seamless user experience across all devices.

# CURRENT PROJECTS

## **<https://timely-golfnew.netlify.app/>**

---

Developed a responsive React.js frontend with API integration for a real-time gaming platform, ensuring seamless data flow and interactive user experience. Built both a web application and a mobile APK to support real-time gameplay data and scorecard validation. Deployed on Netlify with optimized performance, mobile responsiveness, and smooth user engagement.

## **<https://angelasswimschool.co.uk/>**

---

Developed a dynamic and responsive React.js website for Angela's Swim School, enabling users to explore and purchase training plans based on duration and yearly programs. Integrated APIs for seamless booking, trainer availability, and pool selection. Optimized UI/UX for a smooth user experience, ensuring fast performance and mobile responsiveness.
